

Taking Shape

It's been 10 months since the £45m investment into our Weybridge campus began and progress on the redevelopment has been impressive.

The College community of students and staff has been absolutely amazing, embracing the changes and working collaboratively to ensure that learning disruption has been minimal.

The investment will transform the college and help us achieve our vision to be an inclusive centre for lifelong learning and to equip our learners with the professional behaviours, skills and values that they will need for their careers.

The Edge

In March, the first refurbished building was handed over.

The Edge building is the new area for the Education & Early Years, Health, Science, Public Services and Sport courses. The building has been completely refurbished internally, offering cutting edge science laboratories, a simulated nursery and model medical rooms for students studying the T Level qualifications in Early Years and Health.

New for September

Two further buildings will be ready for the Autumn term.

The Barnes Wallis 1st & 2nd floors have been totally reconfigured internally to create areas for Hair & Beauty, Catering, Travel & Tourism and a new bright dining/breakout area for students. Our professional training facilities; Brooks Restaurant and Brooks Hair & Beauty Salon will be located in this building - Look out for the public opening event in October.

The Tower will provide classroom space that will be utilised by the whole college whole College for the teaching of theory, workshops, tutorial activity and English and maths. The top floor will be a dedicated space for our Pre-16 Foundation Pathways students who choose an alternative secondary education.

It's such an exciting time to join us, we are creating an inspiring campus to equip learners of all abilities with the professional behaviours, skills and values they will need for their careers.
Join the Brooklands Technical College community!

Want to know more about our plans?

Come and visit us at the Weybridge Summer Festival - Sat 21st June 12-6pm

This cherished family event is now in its' 5th Year and Brooklands Technical College are delighted to be attending and embracing the vibrant spirit of the Weybridge Community.

The event has everything including dance, choir, band performances and acts as well as local artisan stalls, and plenty of activities for both children and adults!

We will be attending with further information on the £45m investment into our college campus and also showcasing the endless possibilities taking a technical course can offer.
